ForTES

ForTES is a non - profit association that acts in the sector of instruction and vocational training. The association promotes the development of permanent education in favour of social cultural and economic integration of people.

An important activity of ForTES concerns the development of methodologies to get over barriers between educational-training moments and operative realities in the world of work; in this context, ForTES studies the problems concerning the recognition of competencies acquired in the different places of social and professional life.

The action of ForTES bases itself on the engagement of a nucleus of operators that have a long experience in training, above all inside public training structures. The ForTES operators have directly managed projects financed by the European Union and have contributed with publications and others things to the diffusion of culture of continuous training.

Main activities

- Activities favouring young in transition from school to the world of work: Training apprenticeships abroad in companies - Apprenticeships abroad in line with the European programme " Leonardo da Vinci"; Course + work for foreigners in Italy.
- Activities of continuous training: courses for teachers, relative to the theme of learning in informal situations and to the recognition of formative credits; courses addressed to the people in charged of reception of staggers in firms (public sector and private).
- Activity of research, consultation and diffusion - Realisation of studies and researches on themes tied to initial learning and to continuous learning: Engineering of the training projects; Models of school-work alternation; Recognition of skills and formative credits.

The Association carries out its activities directly or in collaboration with public or private institutions, through the creation of net partnership.

In fact, the ForTES team has already organised various training projects experience, that have been realised thanks to the active participation of subjects different from school: enterprises, associations of category, local institutions, that have offered their knowledge and their resources for a common purpose. In this moment of great change in the patterns of organisation of training, above all at territory level, ForTES intends to carry out in a more decisive way, a function of service towards training agencies and social parts, comprehending local administrations, and to proposes itself as an instrument to put in contact the various different parties.
